

Digital Innovation (DI) Fee Schedule
Required Software for Hospitals Pursuing Trauma Center Accreditation
Revised 6-20-19

For hospitals pursuing trauma center accreditation, software and maintenance fees are purchased directly from PTSF vendor Digital Innovation, Inc. Once the hospital achieves accreditation as a trauma center, the fees are included as part of the participation fee paid to PTSF.

Software/Service	Level I/II/III Fee	Level IV Fee for Registry Anywhere	Comments
One-time Collector, Tri-Code, DI Report Writer and PAV5 licenses <i>CAH facilities see note #1</i> <i>See PAV5 note below #2</i>	\$6,000	\$6,950 (\$1,800 of this is a per site hosting fee. \$350 is MS Office License Fee)	One-time fee incurred by hospital prior to accreditation.
<ul style="list-style-type: none"> • Annual maintenance fee for Collector and Report Writer • Annual Maintenance fee for PAV5 • Annual Maintenance fee for Tri-code • Web hosting fee 	\$1,600	\$1,400	Annual fee paid by hospital to DI prior to accreditation. Once accredited the PTSF participation fee covers this fee.
Total	\$7,600	\$8,350	

Notes

1. *For Critical Access Hospitals pursuing trauma center accreditation grant money may be available enabling PTSF to waive Digital Innovation fees. Please contact the PTSF for more details.*
2. *PA V5: For the past several years, organizations and individuals have been working to move the current PI software known as POPIMS to a new platform and software called PA V5 Outcomes. PA V5 Outcomes provides enhanced functionality, but, cannot be incorporated into the current POPIMS platform. Installation of PA V5 Outcomes will begin in the fall of 2017 and will be accomplished in a "rolled out" fashion with the goal of full installation in every trauma center by July 1, 2018.*
